## **Fiserv Lending Solutions and Mortgagebot(R) Launch Direct Credit Interface**

BROOKFIELD, Wis., Oct 02, 2006 (BUSINESS WIRE) -- Fiserv Lending Solutions, a unit of Fiserv Inc. (Nasdaq:FISV), and Mortgagebot LLC have announced establishment of a direct interface between WebStar, Fiserv's credit reporting platform, and Mortgagebot's online mortgage origination system. With this interface, clients using MortgageBot's PowerSite Pro(R) will be able to pull credit reports from Fiserv's WebStar platform directly into its system. PowerSite Pro is a Web-based point-of-sale system for professional loan officers.

"Fiserv is pleased to be able to offer this interface to its clients. Fiserv and Mortgagebot have mutual clients, many of whom are anxious to put this interface into immediate use," said Bill Stevens, executive vice president of Fiserv's Credit Information Services unit. "Mortgagebot and Fiserv have long enjoyed a partnership that brings integrated, value-added solutions to its clients, and this development adds another dimension to both company's capabilities."

Scott Happ, president of Mortgagebot, added, "We worked closely with our clients to develop PowerSite Pro, a configurable solution loan officers use to conduct tailored loan application interviews. Providing timely credit information is a critical component, and the interface with WebStar means faster, accurate loan processing."

PowerSite Pro's interface with WebStar securely pulls credit report data and prepopulates loan applications, saving time for loan officers and providing faster turnaround for consumers. Mortgagebot's dynamic solution removes obstacles loan officers often encounter in the application process and allow consumers to receive approvals within 15 minutes. PowerSite Pro's interface with Fiserv further expands both companies' abilities to serve the marketplace and addresses immediate needs of mutual present and future clients.

### About Mortgagebot

Mortgagebot is the leading provider of Internet-based loan origination solutions for the mortgage lending industry.
