BROOKFIELD, Wis.--(BUSINESS WIRE)-- [Fiserv](#), Inc. (NASDAQ: FISV), a leading global provider of financial services technology solutions, announced today that Manchester, N.H.-based Granite State Credit Union has successfully implemented Statement Advantage™ from Fiserv for document composition, production and delivery of both printed and electronic statements to members.

"We no longer live in a world of one size fits all marketing," said Jorge Diaz, President, Output Solutions, Fiserv. "One size fits one marketing is expected by consumers and - when done well - delivers more value and improves member satisfaction. The scale, security and flexibility of Fiserv allows us to help financial institutions achieve their business communication goals and align with the way their members live and work."

According to InfoTrends research, consumers read statements for five minutes and nearly 40 percent of consumers want their statements personalized. Delivering statements is more than providing data. It's an opportunity to educate members and cross sell relevant products and services when they need them most - when a life event occurs.

"Statement Advantage has enabled our credit union to put a greater focus on communicating in an eye-catching and more impactful and timely way to our members," said Michele Plaza, Executive Vice President, Chief Information Officer at Granite State Credit Union.
