Fiserv Showcasing Lending, Remote Deposit Capture and Revenue Enhancement Solutions at CBA Live 2010 Conference

Brookfield, Wis., June 8, 2010 - CBA Live 2010 Booth # 37/38 - [Fiserv, Inc.](#) (NASDAQ: FISV), the leading global provider of financial services technology solutions, is showcasing its end-to-end loan management solutions, including its next-generation Automotive Loan Origination Solution, Common Origination Platform and Loan Servicing Platform at the CBA Live 2010 Conference in Hollywood, Fla., from June 6-8.

In addition, David Stiff, chief economist and vice president of Quantitative Research, Fiserv, provided the keynote speech for the Collections and Home Equity Tracks, discussing the current economic climate and providing home price forecasts for the U.S. and specific market areas, on Sunday. Tom Matthews, vice president, Loan Servicing Solutions, Fiserv, facilitated a loss mitigation roundtable on Monday.

Fiserv technology helps financial institutions close, manage and service loans more quickly and efficiently - while minimizing lending risk and strengthening customer relationships in the process. With Fiserv solutions, financial institutions can automate lending with real-time processes that manage the complete lending cycle from inception through payoff, driving portfolio profitability.

During the conference, Fiserv will also be featuring the following solutions:

- | **Paperless lending** provided through Nautilus® Enterprise Content Management from Fiserv, is a configurable, scalable enterprise content management solution that can be deployed to meet an institution's specific loan processing requirements. Nautilus streamlines the review and routing of loan documents; provides instant, secure access to all loan documents and data; offers quality control and audit business process automation; and expedites loan closing and funding.
- | **Contact and servicing center solutions** provide customized private label outsource solutions and services that add value and increase business agility. Fiserv has deep domain expertise to deliver high-quality customer service; collections and recovery; sales and lead management; helpdesk Level I support; and back-office functions such as payment processing, imaging and document management, title/UCC management, and vehicle remarketing.
- | **Source Capture Solutions**® is a unique group of solutions that provide check image capture on a common web platform. Whether deposits are taken at a branch, merchant, cash vault, ATM, lockbox, office or a consumer's home, Source Capture Solutions from Fiserv meets the precise image, data capture and security requirements for each capture site.
- | **Revenue Enhancement Solutions** help financial institutions meet their revenue and customer relationship objectives through a carefully staged sequence of emerging best practice opportunities. Tailored to the unique needs of each organization, these opportunities are timed at a cadence to build long-term, sustained benefits and growth.
