Audubon Savings Bank Improves Efficiency with Fiserv VISION Cleartouch

New Jersey financial institution looks to the future

Brookfield, Wis., January 31, 2008 - Fiserv VISION, a business unit of Fiserv, Inc. (NASDAQ: FISV), a leading provider of information management systems and services, announced today that Audubon Savings Bank of Audubon, N.J., with assets of \$166 million, has chosen Fiserv VISION Cleartouch as the bank's core data processing solution. Audubon Savings Bank has ambitious goals for future growth, selecting Fiserv VISION for its ability to improve the bank's operations through increased efficiency while at the same time enabling Audubon Savings to maximize its customer relationships and increase revenue by creating new cross-sale opportunities.

The consistent look and feel of Fiserv VISION Cleartouch, coupled with its easy navigation were factors in Audubon's selection of Fiserv VISION, as were the power and potential they saw in the iVue business intelligence solution and the full-featured functionality of the Fiserv VISION application. D. Kyle Morris, senior vice president and CFO of Audubon Savings said his bank wanted a long term partner and Fiserv VISION was the clear choice.

"When we began our due diligence process to select a core data processor, we were looking for a company with a suite of software to meet both our current and future growth plans. Fiserv VISION, with its Cleartouch software and integrated ancillary solutions, will provide the ease of use and robustness that we will require from our data processing software to efficiently deliver banking services to our consumer, business and government customers in the 21st century and beyond," said Morris.

In converting to Fiserv VISION Cleartouch, Audubon Savings gains a full Fiserv solution set that includes business intelligence, an automated, integrated teller and new accounts platform, retail Internet banking, bill pay and accounting functionality.

Mike Rigney, president of Fiserv VISION, knows financial institutions today face challenges on many fronts. He is confident that Audubon Savings Bank will be able to meet and overcome those challenges through their partnership with Fiserv VISION.

"Today's competitive banking environment has produced savvy customers with high expectations for service and convenience. To exceed service expectations and win market share requires every customer touch-point to become a service opportunity driven by a total relationship view and diverse set of retail and business capabilities. The Audubon Savings Bank team was quick to recognize that value equation," said Rigney.
